FLASH REPORT

[1] YESTERDAY GONE NEVER TO RETURN by Larry Taylor The normal times that we try to remember, are past, gone forever. We have entered into such a time of stress and trouble that our minds which are still in a menu of past days is having difficulty adjusting to the new conditions that are anything but normal! We will never return to those days that we remember as normal. The earth changes have left normal. The economy has left normal. War has left normal. Even our solar system and universe has left what we considered normal.

Our agriculture and food production is greatly limited and controlled which is moving us forward into a place called shortages and famine. It is coming quickly and are you prepared? Do you have shelter plans and a survival plan in place? Is your family prepared for trouble that may come from any direction? Do you have a 'shelter in place' plan or can you leave your home in an emergency and have a place to 'shelter away from home'? What will your family do in an emergency? Your family is at serious risk if you don't have the answers - This is serious!

[2] THE EARTH IS QUAKING by Larry Taylor Earthquakes are shaking the planet with the Pacific 'Ring of Fire' moving pressure towards the USA west coast. China just had a 8.0 magnitude earthquake which has really devastated that part of China with possible 71,000+ dead. The region of Myanmar or Burma has just experienced a Cyclone and Tsunami Wave that may leave 100,000+ dead. The Chaiten Volcano in Chile is producing lava and pushing ash 20,000 feet into the atmosphere. There are 'building' earthquakes continuing under Verdi-Mogul and Reno, Nevada; along with 3+ and 4+ earthquakes almost daily from Baja, California to the Alaska region.

[3] NEVADA EARTHQUAKE GRID by Stan Deyo [CoastToCoastAM Recap] May 2 During the first hour of Coast To Coast AM Radio, author and research physicist Stan Deyo talked about his discovery of an unmistakable grid pattern (pictured Deyo website) formed by the recent Nevada earthquakes. Deyo said he does not think this was a naturally occurring event, and even suggested the quakes may have been intentionally triggered by the scalar weapons. "Someone has done something to make this earthquake series happen," Deyo added. Larger image and more information located at Stan & Holly Deyo website: <http://standeyo.com>

[4] STRANGE SOLAR FLARE by Space Weather No sunspots? No problem. On April 26, 2008 the 'Blank' sun unleashed a solar flare without the usual aid of a sunspot. At 1408 UT earth-orbiting satellites detected a surge of X-rays registering B3.8 on the "Richter scale" of solar flares. That is a relatively minor flare; nevertheless, the blast sent a "solar tsunami" shock wave rippling through the sun's atmosphere and also launched a coronal mass ejection. The CME is expected to reach earth late on April 28th or April 29th, possibly sparking high latitude auroras when it does arrive. This happened without sunspot signs. <http://spaceweather.com>

[5] STRANGE AND AMAZING THINGS by David Meyer [Last Trumpet Newsletter] May 2008 Issue/ Strange and amazing things continue to happen in Space. Galaxies continue to be gobbled up by black holes, stars are exploding in record numbers, and now, to the shock of astronomers everywhere, the NASA Mars rover named "Spirit" sent back photo images from the surface of Mars with the perfect image of a woman sitting on a rock with both arms outstretched. Headlines refer to her as the "Lady in Red." The experts have no explanation for this clear image. Red is the color of harlotry, and is this another sign in the heavens? Write for Newsletter: David J. Meyer, Last Trumpet Newsletter, P.O. Box 806, Beaver Dam, WI. 53916-0806 Website: <http://www.lasttrumpetministries.org>

[6] STAN DEYO WARNING by Larry Taylor Scientist Stan Deyo recently on the Q-Files Radio Program WARNED: Probable Earthquake event on the West Coast of USA along with warnings for New Madrid activity. Larry Taylor "Quik-Notes" from program: (1) Long-Term episode Nevada events point to precursor quakes building..(2) Off the coast of Oregon cluster quakes on plate juncture..(3) We may be looking at an imminent, within weeks disaster..(4) Rupture of Juan de Fuca area could take out everything and produce Tsunami's..(5) North of Memphis, Tennessee area, the quakes on fault line are building..(6) Pacific 'ring of fire' big 3 earthquakes Monday, may move pressure to West Coast..(7) Nevada situation is imminent within weeks..(8) This is also a 'major' threat right now to the U.S. food supply..(9) Reports in midwest USA of chicken egg producing "wavey" pattern on the shells -seismic-..(10) Sun has started shooting CME's without sunspots..(11) Be prepared for power outages of several weeks from the weather events, sun activity, or seismic activity in the U.S./ Deyo Website: <http://standeyo.com>

[7] UN-NATURAL DISASTERS AND GIANTS by Steve Quayle [CoastToCoastAM] Recap May 15 Author and expert in survivalism Steve Quayle discussed how disasters such as the Chinese quake, the Myanmar cyclone, and the tornadoes in the U.S. have been coming fast and furious. He suggested that some of these events could be caused by weather warfare brought about by the Illuminati, who seek to reduce the population. For instance, the recent volcanic eruption in Chile was generated thru a tremendous amount of energy, similar to what scalar and electromagnetic weaponry could produce, Quayle noted.

Such natural or man-made devastations can lead to food and water shortages, Quayle added. He stressed the need for people to be prepared with water storage & purification devices, and medical and food supplies. He also advised against living along the coastline.

Steve Quayle updated his research into giants, reporting that a search was being conducted in an underground island labyrinth. According to his "Special Forces" contacts, there are literally tens of thousands of the giants living in suspended animation in hives. They wear copper bands with "Paleo-Hebrew" writing on them, and become reanimated when the bands are removed, he reported. Quayle website: <http://stevequayle.com>
